CAREER SUMMARY

*"A dedicated, highly-skilled, & reputable **Software Engineer & Developer** with 4+ years' extensive practical experience. With strong expertise in Development of Web (Html, CSS, JavaScript, PHP, & MVC) & Desktop Application (C, C++, Python, .NET & C#), Python Flask, Django, Angular, Front-End & Back-End Development, Socket & Serial programming, and & Software Engineering Techniques. Highly skilled & effective leadership, Team-Oriented, Technical & Non-Technical, IT Operating environment, Design & setup of IT Systems to drive company **growth & technical innovation**. Currently working with **Crossover** as a **Front-End Software Engineer**. Strong Software Engineering skills Proficient in determining requirements & resolving technical issues quickly. Outstanding presentation and communication skills with abilities to understand business requirements to cross-collaborate & increase productivity. "*

CORE COMPETENCE

- Python
- React JS
- Angular JS & Angular
- Python Flask
- Django & Django Rest
- Socket Programming
- Serial Programming
- Html, CSS, JS & PHP
- C
- Software Engineering
- GNU C Compiler
- Visual Studio
- Git
- Gedit
- Android Studio
- Oracle
- SQL server
- MySQL

PROFESSIONAL EXPERIENCE

Front End Software Engineer

Crossover

Nov, 2019 – Present Lahore, Pakistan

Major Responsibilities:

- Write and review testable, scalable Python Flask / Angular for the Back-end & React / Django on the front-end that supports & enhances the requirements.
- Build modular, reusable components and features. Support and nurture front end real-time feeds and APIs to ensure that data renders with little delay.
- Integrate third party systems via APIs & rendering performance in order to ensure superior experience for a heavy interaction platform.
- Continuously work to bolster front-end design and implementation processes in order to improve quality and efficiency.
- Collaborate on a daily basis with a small, nimble team of product managers, engineers, and UX designers to understand business requirements and user experience goals and pain points.

Software Engineer

Imannami Corporation

June, 2018 – Oct, 2019 Lahore, Pakistan

Major Responsibilities:

- Worked as Web Developer & managed ongoing Web development projects.
- Responsible for write / review codes in ASP.NET MVC, React JS & Redux JS.
- Working closely with web designers and programmers to produce the website.
- Constant communication with other colleagues in the business to develop and deploy their content – and ensuring there is a clear establishment of what can be created within what time-frame.
- Responsible for Researching different software programs, and maintaining software documentation.

MOST PROUD OF

Scholarship Awarded
Received merit scholarship from PUCIT in 2016 & 2017.

TA-Ship Awarded
Selected as a Teacher Assistant for the subject **Operating System, System Programming, & database** at PUCIT.

Participation in Programming Competitions
Participated in the programming competitions PUCIT SofTech, PUCIT SoftExpo, & ACM ICPC Regional.

EDUCATION

Information Technology University

MS CS (Data Science)

2017 - 2019 Pakistan, Lahore

Bachelors in Computer Science

University of the Punjab (PUCIT)

2013 – 2017 Pakistan, Lahore

PROFESSIONAL EXPERIENCE CON..

- Implementing contingency plans in case the website goes down.
- Maintaining and expanding/enhancing the website once built.
- Managing a team might also be part of the job role.

Software Design Engineer

MicroTech Industries

Aug, 2017 – May, 2018 Lahore, Pakistan

Major Responsibilities:

- Working as a python developer building desktop/web applications.
- Responsible programming Socket & Serial Programming in C and Python.
- Develops information systems by designing, developing, & installing software solutions.
- Determines operational feasibility by evaluating analysis, problem definition, requirements, solution development, and proposed solutions.
- Develops software solutions by studying information needs, conferring with users, and studying systems flow, data usage, and work processes.
- Follows the software development lifecycle. Documents and demonstrates solutions by developing documentation, flowcharts, layouts, diagrams, charts, code comments and clear code.
- Prepares and installs solutions by determining and designing system specifications, standards, and programming.

PROJECTS

GroupID Reports Portal

ASP.NET MVC, ReactJS, & Redux JS

Aug, 2017 – Nov, 2017 Lahore, Pakistan

GroupID active directory management offers reporting on Active Directory users, computers and groups, allowing administrators to keep track of such important things as “groups and members”, “groups with no owners”, “groups that have no members”, “users who are locked out”, “users without a department”, “computers that have never logged into the network”, and many more.

Screen Monitoring Software

Python, Socket Programming, DBus, DCOM, Tcl/GtK & Flask

Oct, 2016 – June, 2017 Lahore, Pakistan

It is cross platform software suite. A software’s consist of four programs server, client, desktop application and website. Client program run as a service takes screen shot of desktop and send it to server. Server receives a screen shot and place it in specified path. Desktop and Website applications are user interface to monitor the screens received.

Campus Versioning System (FYP)

C, Linux, Gedit, & Git

Oct, 2016 - June, 2017 Lahore, Pakistan

It is command line based application, which works locally & remotely for versioning of Projects & making data repository for sharing it with others.

REFEREES

Will Be Made Available on Request

CERTIFICATES

Multi-platform Mobile App Development with React Native

Coursera **ID: 72RSPLBZBJJJ**

Feb, 2020

Front-End Web Development with Rect

Coursera **ID: 42WHQ2PP74KY**

Jan, 2020

I.T SKILLS

Web Development:

Html, CSS, MVC, Python & JavaScript.

Programming Languages :

Python, C#, VB.Net, JavaScript, RACTJS, Angular, AngularJS, C, C++, & Java.

Database Management System :

MS SQL Server, MySQL, SQL Scripting, MongoDB, E-R Model,Relational Model, Normalization.

Networking :

Troubleshooting IP Networks, IP Switching, IP Routing, and routing & switching.

Other Tools & Skills:

PyCharm, WebStrom, vs code, & atom, Eclipse, Visual Studio, MS SQL Management Studio, Wire Shark, Git.

STRENGTHS

- Problem Solving
- Technical Acumen
- Critical Thinking
- Organizational
- Flexibility
- Creativity
- Leadership
- Teamwork
- Emotional Intelligence
- Communication
- Attention to Detail
- Implementing strategy
